IoT Solutions Alliance

STOP CRIME IN REAL TIME

According to the FBI, a violent crime occurs every 22.2 seconds. Because of this astonishing frequency, it is impossible for law enforcement individuals to protect everyone. Among other critical challenges for law enforcement are:

- ➔ Productivity and effectiveness of security staff
- ➔ Allocating adequate resources
- ➔ Historical data for trend analysis

Dace-IT

Dace IT LLC d/b/a Sense Traffic Pulse™ is a Member of the Intel® IoT Solutions Alliance. A global ecosystem of more than 800 industry leaders, the Alliance offers its Members unique access to Intel® technology, expertise, and go-to-market support—accelerating deployment of best-in-class solutions.

See how our free day trial of Sense Traffic Pulse can provide invaluable, real-time information about an incident in progress to law enforcement or first responders.
